

The modulation generator

A modulation is where a piece of music moves to a different key. Modulations are usually to a related key: the relative major/minor, the dominant and sub-dominant and their relative majors/minors. Use this chart to fill out the possible modulations from a particular key.

The award-winning *PianoTrainer* series: **The Foundation Pianist**, **The Intermediate Pianist** and **The Advanced Pianist** books are published by Faber Music. Available from all good retailers and online.
